**Why the product is recalled:** A mechanical defect in the actuator link rod in the engine may not allow the boat to shift out of forward gear.

**Hazard:** There is a risk of serious injury or death if the actuator link rod fails and the boat crashes or is unable to stop.

Consumers should stop using boats with the recalled engines immediately.

Consumers should contact their nearest Authorised Honda Marine Dealer and arrange for their outboard engine to be inspected and repaired, free of charge.

Ask our staff to find out more about the recall.
