

Dear

**Notice of voluntary product safety recall  
Mercury/Mariner 40/50/60 hp FourStroke engines  
Serial No.:**

As part of our commitment to superior customer satisfaction, we have determined that it is necessary to inspect and possibly replace your fuel system primer bulb to ensure the safety and reliability of your FourStroke outboard. The connection of the fuel system primer bulb to the fuel line check valve may be compromised.

**What is the condition?**

Mercury Marine has determined that the seal for the check valve to the primer bulb may allow air to enter the fuel system causing a lean fuel condition. It may also allow fuel to leak from the connection when the primer bulb is used for priming the fuel system. Mercury Marine has identified the cause of this condition and made the appropriate changes to new fuel line assemblies and primer bulb assemblies.

**What will Mercury Marine do?**

Our Dealers will perform an inspection of your fuel system to see if the unit is using an affected fuel system. Mercury Marine has provided instructions to our dealers on the proper method of replacing the necessary fuel system components if required.

**What should you do?**

Stop using the boat until it has been inspected and, if appropriate, rectified.

Please contact your Mercury Dealer and mention Service Bulletin 2011-13 to schedule an appointment for inspecting and possible replacement of the appropriate fuel system components. There will be no charge to you for the inspection or rectification.

Your Dealer will be able to determine how long this inspection/correction will take.

**Please present this notice to your dealer when you bring your boat in for your service appointment.**

**What if you have other questions or if you no longer own this engine?**

Please contact your authorized Mercury/Mariner Outboard Dealer or Mercury Marine at [merc\\_info@mercmarine.com](mailto:merc_info@mercmarine.com)

We have sent this notice in the interest of your continued satisfaction with our product, and we sincerely regret any inconvenience this may cause you.

For your nearest dealer location please refer to our website [www.mercurymarine.com.au](http://www.mercurymarine.com.au)

Sincerely

Marine Power International Pty Ltd
