

# Product Safety Recall

## BURKE DELUXE BOSUN CHAIR (BOS201N) & STANDARD BOSUN CHAIR (BOS202N)

Colour red with black webbing.

Burke P/L is conducting a voluntary product recall of Burke Deluxe Bosun Chair and Burke Standard Bosun Chair purchased nationally after June 2007 that do not display either a production batch number or inspection label.

**Defect:** Burke Bosun Chairs manufactured between July and August 2007 may be fitted with a defective stainless steel lifting ring that if used could split or break causing injury or death.

Due to the potential danger to users and uncertainty on when these products may have been purchased this product recall applies to all Burke Bosun Chairs sold after June 2007.

**Urgent Action is required:** Cease using immediately and contact Burke P/L direct to organise for free inspection and load testing of the stainless steel lifting ring.
