

Product Safety Recall

Geskin International Pty Ltd

Portable ramps for vehicles

Sold online by Geskin International Pty Ltd <https://au.gktech.com/contact>

Defect The portable ramp was supplied without instructions for use and labelled markings on the product itself. The product does not comply with the labelling requirements of mandatory standard AS/NZS 2640:1994 Portable ramps for vehicles.

Hazard Misuse of the portable ramp may occur as a result of missing instructions for use and labelled markings. As the ramps are used for raising the front of a vehicle off the ground, there is potential for a crushing hazard if the ramp is misused while a person is underneath the vehicle. This may result in serious injury or death.

What to do Owners of the affected product can contact Geskin International Pty Ltd via email sales@gktech.com.au to discuss their preferred remedy.

Consumers will be able to choose from the following options for remediation:

- 1) Geskin International Pty Ltd will send consumers permanent stickers that they are able to attach to the ramp, along with the instructions of safe use.
- 2) The consumer can return the ramp at no cost and receive a replacement set of ramps with the correct stickers attached, and the instructions of safe use.
